

# WE NEED DESIGNERS WHO CAN WRITE

Research and Create Designs.  
Work From Your Dorm!  
Make Money. Build Your Portfolio.

As JBU alumni, we value your education and understand how difficult it can be to build a portfolio that gets you recognized. This is especially true while still in school. We have a premier marketing firm specializing in writing design-related content to be published on internationally recognized websites and magazines. Work with us and you can make money while building a resume that shows you know your stuff and can apply your skills in a commercial setting.
